

## Punta Cana Leisure AND Adventure

Like most Caribbean travel destinations, the moderate temperature holds throughout the entire year. Due west of Puerto Rico, the highest temperature ever recorded is still only two digits, the sea breezes simply do not allow the great swing in temperatures.

Punta Cana is all about relaxation and stress relief. The pace is slow and leisurely, with plenty of time to mellow out.

But if you must do something there are many attractions available. One is called the Bavaro Splash Tour. You board one of the many boats bordering the coasts of Bavaro beach and make your way to the middle of the sea. Here, you will have the option to snorkel, sun bathe or just admire the great variety of fish, coral, seashells and other sea life. It's a three-and-a-half hour excursion exploring the blue seas of the Dominican Republic.

Or you can take a horseback ride through the lush vegetation and enjoy time on a beautiful isolated beach. For lunch, enjoy a Dominican-style buffet right on the beach, part of your all-inclusive travel package from Rooms101.com. Or you can learn about traditional Dominican life and the lifestyle of the Haitian people on a Jeep safari.

You could also explore a one-in-a-million cave along with breakfast and lunch. The unforgettable Cueva Fun Fun Cave Tour begins with a delicious breakfast of fresh tropical fruit. Then you will don your special gear for a brief training lesson. A horseback ride takes you through the reserve of "Los Haitises" until you get to the mouth of the cave, where you will descend on a rope and take a free fall of more than 60 feet! (It's all safe, but exhilarating.). Or you could just go back to sleep under the palm tree at the edge of the sea.
