

## Las Vegas – A Shopper's Paradise

While it's true that Las Vegas has gone a long way toward making the town more for the whole family, there's one indisputable activity that is distinctively adult that is still a great way to spend your time in "Sin City".

Nope, not gambling...SHOPPING!

Check with your Rooms101.com Travel Specialist for the best travel package to suit your needs but be sure to reserve some vacation time for exploring the many shopping opportunities that are available to you.

We'll start with Town Square, which was developed as an open-air shopping, dining and entertainment center on the Las Vegas Strip. The eclectic mix of retailers that comprise Town Square include H&M, Apple, bebe, Chico's, Express, Guitar Center, Lucky Brand Jeans, Marciano, Martin+Osa Metropark, Michael Stars, an 18-screen Rave Motion Pictures, Sephora, White House/Black Market and more. Borders Books, Whole Foods Market, Robb & Stucky and many others have either recently opened or are planning stores in the near future.

The Town Square also features an interactive children's park, and an area for special events and Class A office space.

Then there are the Miracel Mile Shops and the Planet Hollywood Resort & Casino. Their 170 specialty stores, 15 tantalizing restaurants, and a prime center Las Vegas Strip location. Shopping, Dining, Entertainment and Gambling. Sound like paradise to me.
